

# ARTEM ALEKSASHKIN

Senior Software Engineer | Tech Lead  
Tbilisi, Georgia • [artem@aleksashkin.com](mailto:artem@aleksashkin.com) • [Linkedin](#) • [Telegram](#)

---

## SUMMARY

Seasoned Software Engineer with 13+ yrs of experience in **PHP & JavaScript**, 3+ yrs in **Golang & Python**. Hands-on experience as **Team Lead**: hiring, people & performance management, mentoring, offboarding. **DevOps** practitioner: Linux (Ubuntu, Gentoo), Windows, OS X; Docker, Kubernetes; AWS, GCP.

I prefer to work remotely as **B2B contractor**.

**Languages**: English - B2 (Upper-Intermediate), Russian - C2 (Native).

---

## WORK EXPERIENCE

### Senior Backend Developer | Tech Lead, Global Fashion Group 2 y 2 m • Feb 23 - Present

**Global Fashion Group** operates 3 ecommerce platforms: Dafiti, ZALORA, THE ICONIC.

- Developed API features, including API endpoints with unit, API, and functional tests.
- Made imports 60x faster by rewriting the import script and optimizing data dumps.
- Integrated PHPStan into CI pipelines.
- Maintained Golang and Java microservices.
- Resolved critical issues in TypeScript projects, even though they were not officially supported.

**Main Tech Stack**: PHP, Symfony 5.4, Zend Framework 1, MySQL, PostgreSQL, AWS, Kubernetes.

**Additional Tech Stack**: Golang, Java, Python (microservices).

### Senior Backend Developer | Tech Lead, Kubient 4 y 3 m • Nov 18 - Jan 23

**Kubient** is an open marketplace for digital advertising with AI-powered fraud prevention and real-time bidding.

- Standardized 3 UI projects (dockerized, updated PHP, added tests, improved deployment flow, set up environments, documented processes, and configured Xdebug).
- Improved team flexibility - each developer could work on all 3 projects.
- Developed new UI (PHP, Symfony, API Platform, TypeScript, Angular) in 3.5 months, enabling business growth with a modern account system and API partner access (company was transitioned to the new UI).
- Optimized UI reporting to handle 20x more data with faster sorting and search.
- Created documentation that reduced onboarding time for new developers.

**Tech Stack**: PHP, Symfony 4.3, TypeScript, Angular 9.1, Bootstrap, MySQL, Golang, Docker.

### Senior Backend Developer | Team Lead, Criteo 2 y 9 m • Mar 16 - Nov 18

**Criteo** develops a Commerce Media Platform that helps marketers and media owners to buy and sell digital ads across web, mobile, CTV, audio, gaming, and digital out-of-home channels.

- Unified 8 projects and reduced dev team from 20 to 5 engineers.
- Led a team of 5, handling hiring, people management, career development planning, and mentoring.
- Cut tech debt across projects, ensuring full test coverage, zero bugs, and 10x performance boost.
- Refactored critical code, improving UI responsiveness and reducing latency.

**Tech Stack**: PHP, Symfony, JavaScript, Ext.js, Vagrant, Docker, Python.

### Backend Developer, Svyaznoy 5 y 1 m • Feb 11 - Feb 16

**Svyaznoy** was one of the largest electronics retailers in the CIS region.

- Developed a price control project and a competitors' price collection.
- Managed and mentored a team of 2 developers.
- Managed company servers (Linux Gentoo / Fedora / Ubuntu / Debian)

**Tech Stack**: PHP, Symphony, JavaScript, MySQL, PostgreSQL, Bash.

---

## EDUCATION

### HSE Tikhonov Moscow Institute of Electronics and Mathematics

Bachelor's Degree • Management • 2009

Postgraduate Degree • Computer Science • 2010
